PROFILE

Master's graduate in Data Science & Information Systems Security with a software-engineering background. Built an Industry 4.0 supervision platform combining 3D simulation, IoT telemetry, and ML-based anomaly detection. Experienced in applied machine learning, backend engineering, and full-stack development, and quick to learn new technologies and frameworks. Seeking a junior Data Science, Machine Learning, or Full-Stack Developer role.

INTERNSHIPS & PROJECTS

Full-Stack & ML Developer - Virtual FabLab (Final-Year Project) Feb - Jun 2026

ENSA / FPBM - Béni Mellal

- Built a full-stack Industry 4.0 platform with machine reservations, admin dashboards, JWT authentication, and interactive 3D simulations of an FDM 3D printer (G-code) and a CNC/laser machine.
- Developed a predictive-maintenance module using Isolation Forest for anomaly detection on simulated MQTT telemetry, and integrated a generative-AI chatbot through the FastAPI backend.

Next.js · TypeScript · FastAPI · Python · MQTT · scikit-learn · React Three Fiber

Software Development Intern - OCP Group, Laverie Daoui Mar - May 2023

- Built desktop and mobile applications with Java, Android Studio, JavaFX, and Spring Boot to manage equipment-visit workflows and monitor industrial equipment.

E-commerce Website for Car Parts - DUT Final-Year Project 2023

- Designed and developed an e-commerce website for selling car parts, built with Laravel.

Laravel · PHP

EDUCATION

Master's - Data Science & Information Systems Security Sep 2024 - Jul 2026

Faculté Polydisciplinaire, Université Sultan Moulay Slimane - Béni Mellal

Licence (Excellence) - Data Science & Information Systems Security Sep 2023 - Jun 2024

Faculté Polydisciplinaire, Université Sultan Moulay Slimane - Béni Mellal

DUT - Software Engineering Sep 2021 - Jun 2023

École Supérieure de Technologie (EST), Université Sultan Moulay Slimane - Béni Mellal

TECHNICAL SKILLS

Programming	Python, Java, JavaScript/TypeScript, SQL, PHP, C++
Data Science / ML	Pandas, NumPy, scikit-learn, TensorFlow/Keras, data analysis, machine learning
Big Data	Apache Spark, Hadoop, HDFS, Hive, Sqoop
Web & APIs	React, Next.js, Tailwind CSS, Laravel, FastAPI, Flask, Spring Boot, REST APIs, JWT
Databases	MySQL, MongoDB, SQLite
Tools	Git/GitHub, Docker, Postman, VS Code, Linux
Languages	French (B2), English (B2)
